c) Pre-Employment Screening for all new hires

Everllence performs background checks as part of the recruitment process in order to satisfy the highest possible compliance and integrity standards in its business activities. Everllence must ensure that potential personnel perform their tasks in accordance with high ethical standards and warrant to observe the company's corporate principles in order to minimize legal risks and prevent damage to the company's reputation.

Processing your personal data is necessary for the purpose of establishing an employment relationship with you. Everllence has a legitimate interest to hire candidates who have integrity and act on the basis of valid law. This is ensured by validating the information that you provide to us before you're offered a contract of employment.

Pre-employment screening involves verifying your personal details (surname, forename, date of birth, address), presenting your original identity card or a comparable document proving your identity, and submitting your original certificates (certificate relating to the highest level of education or, exceptionally, an officially certified copy in paper form).

It is also verified whether you have already worked for Everllence and - limited to this case and in compliance with data protection regulations - whether you seriously committed any infringements of legal and official regulations or Group regulations during the period of employment. For this purpose, personal data are retrieved in the existing personnel file for the last three years, in the whistleblower system (restricted to Everllence) and in the security database of Group Security.

A comparison is also made with a publicly accessible financial sanctions list according to the valid EU Resolution No. 881/2002. In addition, a matching with the SAM database is carried out in order to identify any involvement in so called reportable facts. The SAM database of the US authorities contains the name of persons who are only permitted to work Everllence as employees under certain criteria.

Pre-employment screening for all new hires is carried out by each responsible HR Department and also, if necessary, by Group Security. Only a restricted group of persons internally is authorized to access your data and ensures compliance with the undermentioned erasure period.

In the event of unusual findings during the background check, the results are discussed in a committee whose members includes a representative from HR Compliance, the manager in the responsible HR Department, the manager in the recruiting department and the Works Council (if applicable). The results of the discussion are documented and entered in the personnel file.

In the case of new hires, all information collected relating to the background check is included in the personnel file where it will be kept according to the retention periods for relevant personnel records and data. Data won't be processed for any other purpose.

All the information collected relating to the background check will be erased for all non-successful external candidates after six months.

Data must be provided to conclude a contract.

d) Transfer of personal data

In some cases we might transfer your personal data to affiliated companies, service providers or other external recipients. The transfer will only take place in accordance with the requirements prescribed under the Federal Decree-Law No. 45 of 2021 on the Protection of Personal Data (“PDPL”) to ensure that the transferred personal data will be accorded a standard of protection that is comparable to that under the PDPL.

e) Candidate search

As part of our search for suitable candidates, we may research professional platforms and use the personal data published there by potential candidates to check whether the person is a good fit for us and to make contact if necessary. This data is deleted after the end of our selection process, unless an application process follows. The basis for the research is our legitimate interest in filling positions with suitable people. You have the right to object.

f) Storage and Deletion of Data

Everllence follows the Retention Limitation Obligation and will cease to retain your personal data when such personal data is no longer necessary for the legal or business purposes stated above.
