Keep your assets reliable

Reliability package

The Everllence PrimeServ Reliability Package provides operation critical spare parts, engineered specifically for your engine and supplied directly from the original designers and manufacturers.

Each package is individually tailored based on your engine type, operating profile, and risk exposure, leveraging Everllence's extensive OEM and application expertise.

The package is designed to:

- Minimize unplanned downtime
- Maintain engine performance
- Extend component lifetime
- Enable predictable and cost efficient maintenance planning

All items are genuine Everllence OEM spare parts, supplied with full traceability and required certifications, ensuring compliance, warranty protection, and operational security throughout the engine lifecycle.

about spare parts

Your benefits

Greater operational reliability and cost predictability

Minimize unplanned downtime and protect long term profitability through engine specific, operation critical spare parts.

Reduced risk of costly service interruptions and off hire events

OEM engineered parts help prevent premature failures and unscheduled repairs.

Improved schedule reliability and supply chain continuity

Protect voyage planning, charter commitments, and cargo delivery by avoiding unexpected machinery breakdowns.

Enhanced safety for crew, vessel, and the environment

Certified, genuine spare parts support safe operation and compliance with regulatory and class requirements.

Warranty protection and global OEM support

Full Everllence warranty coverage, supported by worldwide technical expertise and round the clock assistance when you need it most.

MAN Energy Solutions SE has been renamed to Everllence SE and its products are being rebranded from "MAN" and/or "MAN Energy Solutions" to "Everllence". As this is an ongoing process, any reference to "MAN" and/or "MAN Energy Solutions" is actually a reference to "Everllence". All data provided in this document is non-binding. This data serves informational purposes only and is not guaranteed in any way. Depending on the subsequent specific individual projects, the relevant data may be subject to changes and will be assessed and determined individually for each project. This will depend on the particular characteristics of each individual project, especially specific site and operational conditions. Copyright © Everllence. EVR 000444EN-R1-260400, GKM-AUG
