

Everllence

Always

ready.

PrimeServ NAVAL DEFENCE

With in-country service engineers and a comprehensive portfolio of value-adding services, you're ready. Always.

PrimeServ Naval Defence is committed to ensuring vessels remain mission-ready and on schedule, providing the operational reliability the fleet demands – keeping your assets available, mission-capable and ready for deployment.

We safeguard engines, propellers and auxiliary systems with OEM engineering integrity, multi-brand expertise and 24/7 global support. Everything it takes to keep vessels in service.

Start of Life covers procurement of new Everllence equipment with an ILS/Lifecycle Management package.

Future-proof your asset with retrofit and upgrade solutions that extend product lifetime and meet changing requirements.

Omnicare provides one-stop global service for your engine room equipment – maintenance, repairs and spare parts for Everllence and non-Everllence components.

Technical service on demand delivers precision overhauls of your critical equipment using OEM expertise.

Commissioning by OEM experts ensures safe and reliable operation from day one.

In-Service Support safeguards your asset with lifecycle maintenance.

Specialised OEM training meets your crew's operational needs.

Smarter maintenance keeps your assets operating safely – through our connected platform or standalone digital tools.

Original spare parts and maintenance kits keep your engines mission-ready.

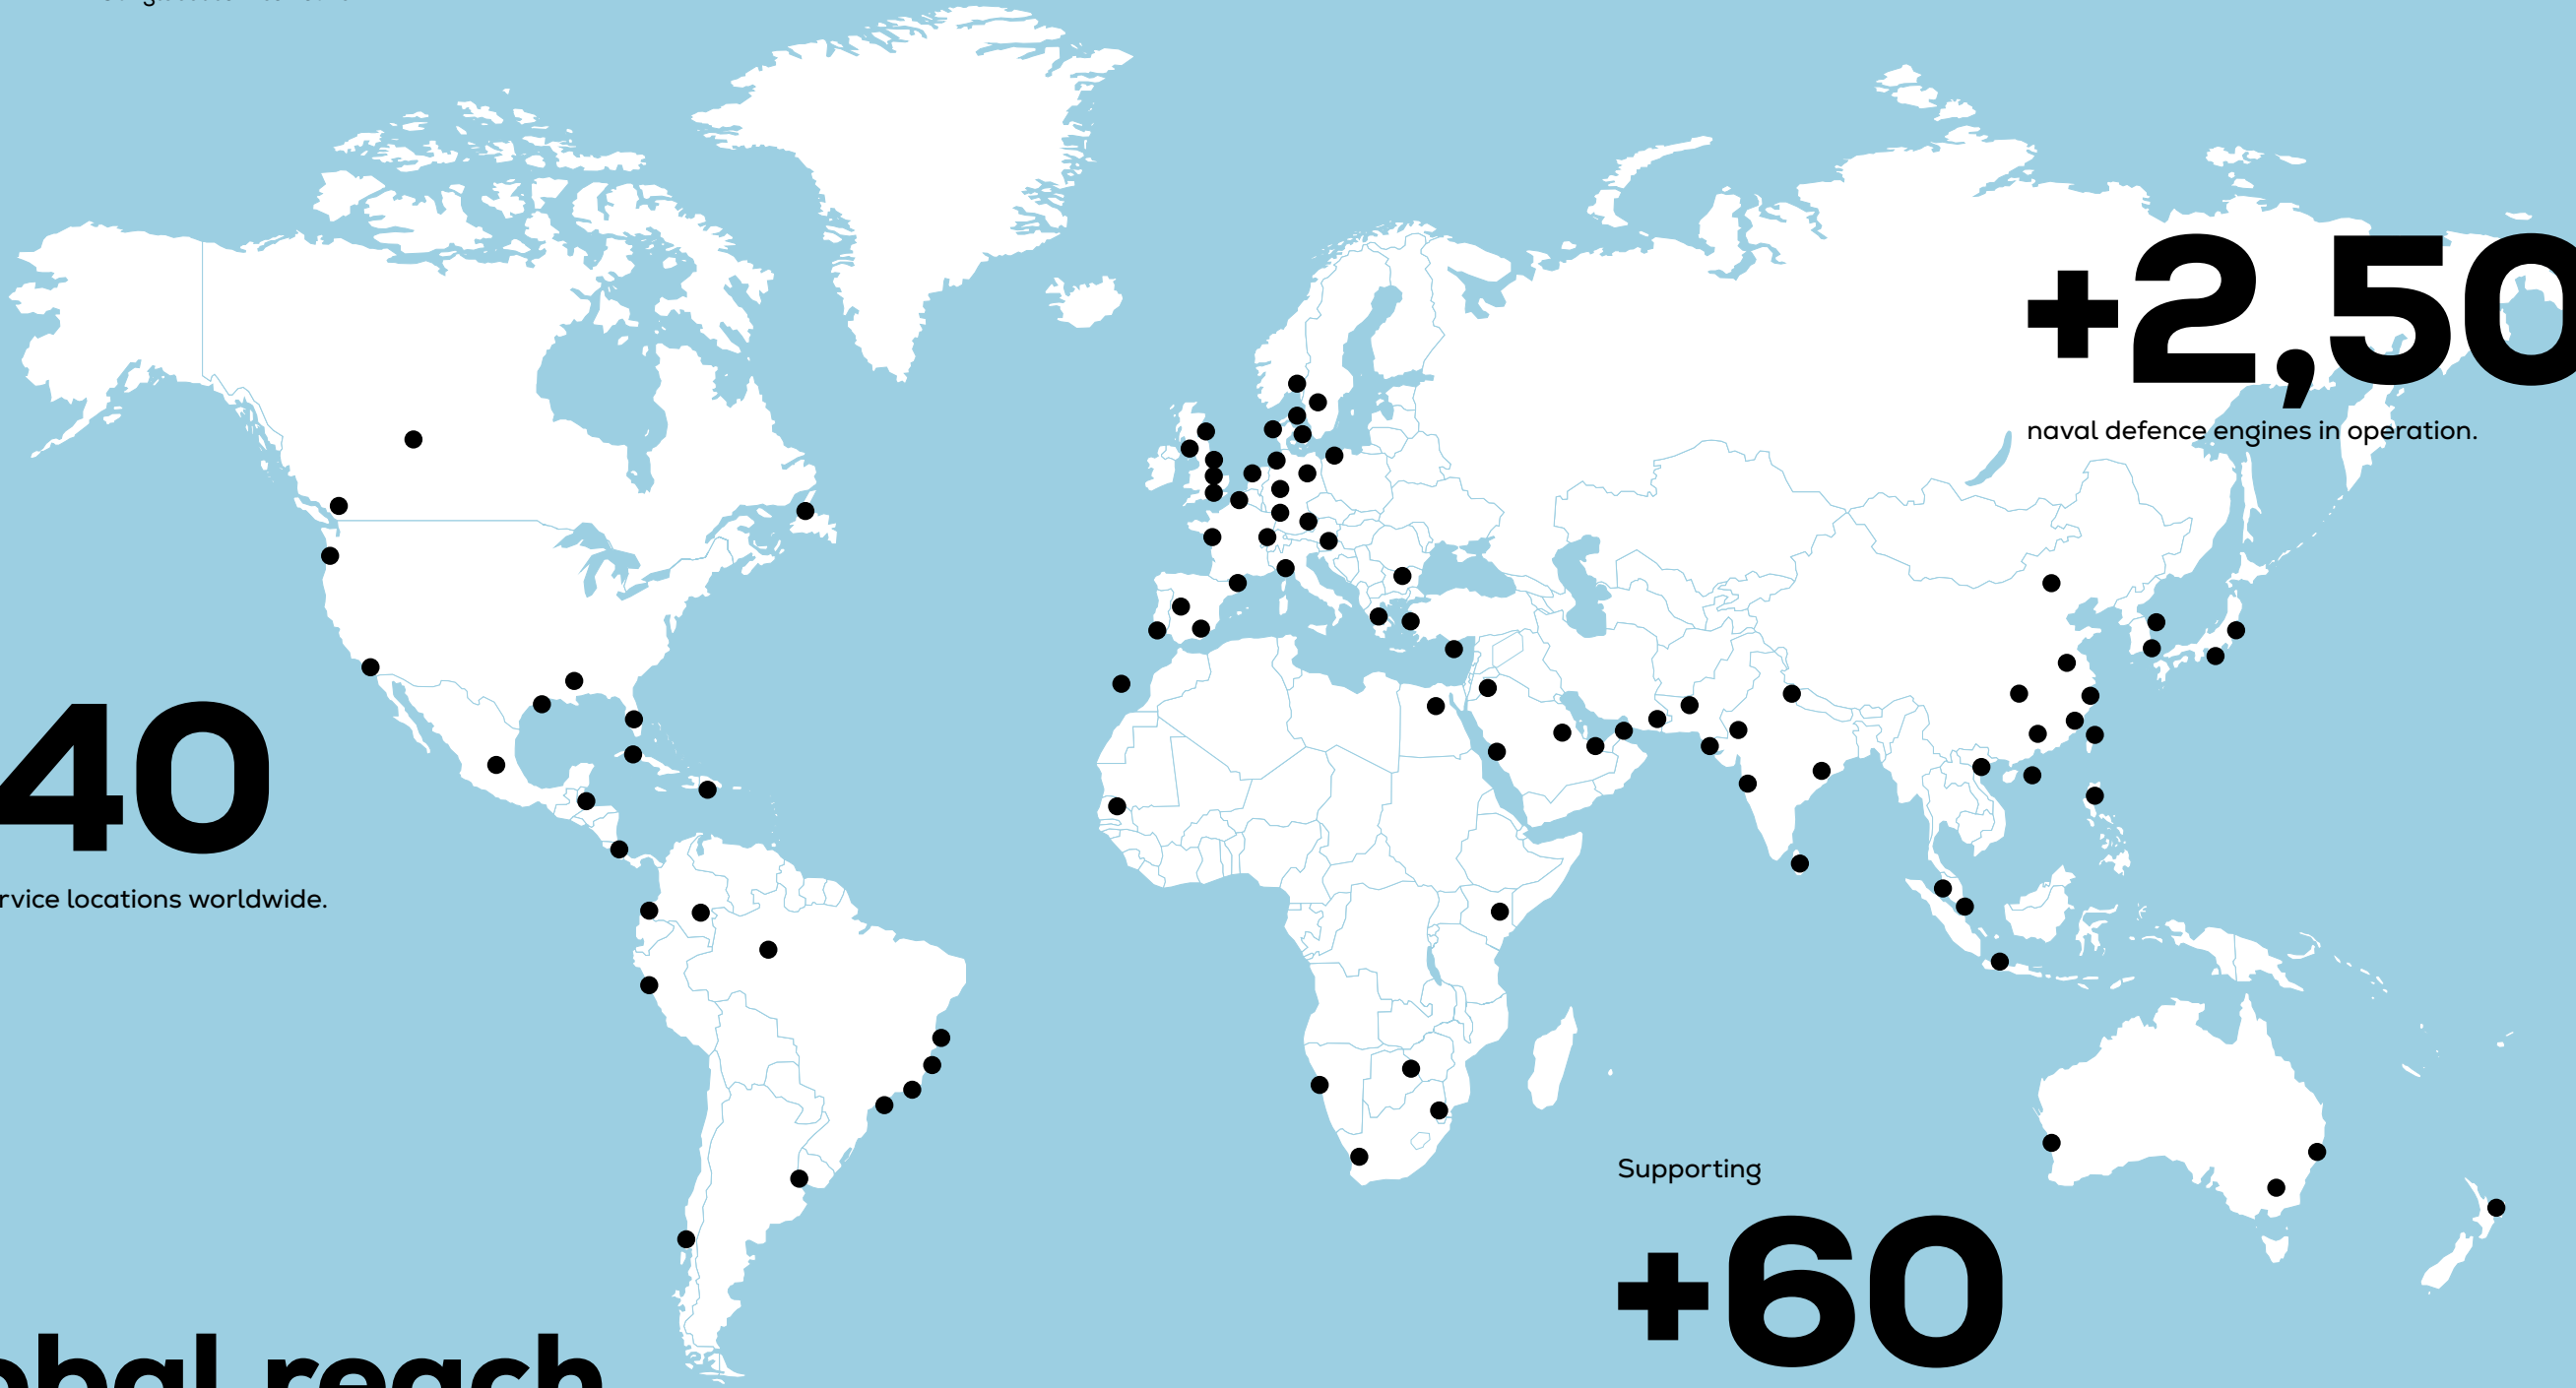

Full circle lifecycle support to secure your mission readiness

Our comprehensive lifecycle management offers individualised, in-country support from initial commissioning to decommissioning – delivered directly from the OEM through the Everllence PrimeServ worldwide service network. No third-party partners. Just unmatched expertise, available locally.

With full backing from our PrimeServ Product Centres and global network, your local contact provides tailored, confidential assistance to meet your specific mission needs. The result: continuous availability and reliable performance across the entire engine room – reducing complexity and ensuring continuity.

This encompasses full lifecycle coverage for all 2-stroke and 4-stroke engines and gensets, including their automation systems, auxiliary equipment, and propulsion solutions. With PrimeServ Naval Defence, you benefit from OEM expertise, integrated logistics support, and globally coordinated in-country

service – ensuring sustained mission readiness, predictable maintenance planning, and minimal budget impact throughout the entire operational life of your naval assets.

➤140

in-country service locations worldwide.

Global reach. Mission readiness.

Wherever your mission takes you, Everllence is already there. As your strategic service partner, we provide the infrastructure required to maintain peak operational availability across the globe. We handle the technical complexity, so you can focus on the mission.

PrimeServ Naval Defence operates to the stringent standards required by modern naval forces. Our solutions hold NNO and IEC shock certifications and comply with defence-grade cyber security and IT requirements, ensuring safe and seamless integration into sensitive

fleet environments. Built on a naval-specific mindset, our teams are fully familiar with military communication etiquette, approval chains, strict operational protocols, and the processes that govern defence organisations – expertise reinforced by long-standing cooperation with

navies worldwide and adherence to approved-nationality requirements. Support is delivered exclusively through our own accredited in-country OEM entities, with no third-party partners involved. This model guarantees uncompromising confidentiality and full control over sensitive

information: operational data remains protected under our military-level data-handling frameworks, every interaction is traceable and accountable, and your mission-critical information stays exactly where it belongs.

navies and coast guards worldwide.

Always ready.

When conditions shift, readiness decides. From routine patrols to high-readiness missions, we deliver the technical assurance and operational stability your crews depend on to move with confidence and clarity.

Where your fleet sails, we stand ready

With a global network of more than 140 PrimeServ service centres positioned in key ports and strategic maritime hubs, our specialists provide direct, in-country OEM support wherever your mission takes you. This ensures consistent reliability, controlled coordination, and uninterrupted availability – reinforcing your fleet's readiness at every stage of deployment.
