

Seamless data integration

Track your two-stroke engine performance directly in customized dashboards through a flexible API solution

Get the insights you need to track your two-stroke assets' performance directly on your own dashboards. This free add-on to PrimeServ Assist enables you to integrate data points natively into your systems and environments. Enjoy a consistent and unified view of essential information for better analysis and decision-making.

This service is designed exclusively for two-stroke engines and is available to PrimeServ Assist customers with vessels connected to Everllence CEON.

Everllence

Seamless data integration

Your benefits

- **Native integration**
Makes data compatible with your existing technologies and workflows
- **Customizable data**
Only integrate what you need and want to show
- **Meaningful data**
Contextualized by Everllence, in our capacity as OEM for accurate interpretation
- **Personal assistance**
We support implementation with guides and instructional videos
- **Cybersecurity**
Authentication via JSON web tokens (JWT) and HTTPS ensures data integrity and secure access control

How it works

- Access Performance 360 data directly in your own systems through a secure API connection
- "Time series data" creates a sequence that tells a story about how your engines behave
- Data updates when Performance 360 recalculates, triggered by one hour of stable engine operation
- You can track performance trends as they happen

Expert support

As a PrimeServ Assist customer you have 24/7 access to our experts in the Remote Operation Center – for performance optimization, acute troubleshooting, and your general peace of mind.

"By integrating the the Everllence CEON Score into aiTelegram, we get a more complete past 24 h overview of each vessel's operational performance."

Dimitris Mytilinis
Senior Performance Engineer
Latsco Shipping Limited

"Superintendents start their day with an at-a-glance view of key indicators and can drill down into source systems when needed for more detailed troubleshooting or assessment."

Iasonas Zacharioudakis
Operational Technology & Energy Manager
Latsco Shipping Limited
