

GenSet Overhaul Packages

The holistic approach to GenSet overhauls

GenSet Overhaul Packages by Everllence PrimeServ provide everything you need to keep your engines running reliably and efficiently. Designed for all four-stroke engines with bore/stroke dimensions L16/24, L21/31, L23/30, L27/38, and L28/32, it ensures optimal performance with OEM spare parts, expert support, and a structured maintenance approach. By following the recommended service intervals, you reduce operational risks and maintain compliance – giving you the peace of mind that your engine is in the best hands.

You can rely on Everllence PrimeServ's expertise, global service network, and high-quality components to keep your operations running smoothly from overhaul to overhaul.

Worldwide service

No matter where you operate, Everllence PrimeServ keeps you covered. With more than 100 service centers in key markets and major ports, we provide expert support and OEM spare parts for L16/24, L21/31, L23/30, L27/38, and L28/32 four-stroke engines. With our 24/7 availability we ensure reliable operations and peace of mind – wherever you are.

One package tailored to your needs

GenSet Overhaul Packages by Everllence PrimeServ are designed to keep your engines running reliably with OEM spare parts and expert-backed service solutions. Tailored to your needs, it ensures that all required components are available for effective maintenance. By aligning with recommended service intervals, it minimizes downtime, extends engine life, and provides peace of mind.

OEM expertise you can trust

With more than 150 years of experience in engine design and maintenance, we ensure that your GenSet is always overhauled with precision, reducing risk and maximizing reliability. As the original manufacturer, we know exactly what your engine needs to perform at its best, using only the highest quality OEM parts tailored for optimal results.

Designed for all four-stroke engines with bore/stroke dimensions L16/24, L21/31, L23/30, L27/38, and L28/32
